Education

Description

Educational board designed for creative play, adapted for use by children using wheelchairs. The toy features a board with a carved giraffe that serves as a height measuring scale [cm]. This unique product not only teaches but also supports the sensory development of the child. The structure is made of black steel, galvanized, and powder-coated. The board is made of HDPE material. The pipes are finished with spherical decorative elements.

Playground device consists of

- 2 x posts
- 1 x board with a carved giraffe and height measuring scale for children [cm]
