Description

The Shoulder Press + The Chest Press multi-functional outdoor gym set for building upper body strength and stamina. It builds up and sculpts the muscles of the chest, arms and back and improves the functionality of the cardiopulmonary system. What sets us apart from others is that the seat and backrest are covered by polyurethane foam (PU system). As a result, users never have a feeling of hot touch during very sunny days or cold during frost.

Shoulder Press

To do the exercise, sit comfortably on the seat and grab the handles with your hands. Push the handles upwards until the elbows are straight. Keep your back upright.

How to use Shoulder Press:
